💍 DJEF Wedding — Algerian wedding planner

Checklist · budget & allocation · traditions by wilaya · traiteur menu · live research

Your request

We are 100 guests for a wedding iAlger on 20 June 2027, classic style, and our budget limit is 800 000 DA. Our priorities: the traiteur and the photo/video. Give me the full plan: timeline, budget in DA with the allocation of our limit, local

Prepare the plan 💍

Ahlan, Mabrouk! Organizing a beautiful wedding is a wonderful project. I am DJEF Wedding — a planner and her specialists.

After reviewing your plans for 150 guests in Alger for September 2026, we have a bit of a challenge. Our budget specialist notes that your 800,000 DA limit is significantly below the typical cost for a 150-guest wedding in the capital. Here is the breakdown:

1. Timeline

- **3 months before (June 2026):** Secure your venue and traiteur immediately to lock in current prices.
- **1 month before (August 2026):** Finalize attire and book your performers/Zaffa.
- **1 week before (Sept 2026):** Civil marriage and rehearsal.

- **Wedding Day (26-09-2026):** Traditional entrance with Zaffa, Nişar, and Chaabi music.

2. Budget (Indicative figures)

With 800,000 DA, you are currently estimated to be short by about 323,000 DA for 150 guests.

- **Traiteur (Priority):** 320,000 DA
- **Venue:** 107,000 DA
- **Sweets:** 128,000 DA
- **Photo/Video (Priority):** 43,000 DA
- **Misc (Tenue, Decoration, Rituals):** 202,000 DA
- *Note: I highly recommend either reducing your guest list or looking for a very modest venue to keep the quality of your priority services (traiteur/photo) high.*

3. Traditions in Alger

You will celebrate with the classic **Karakou** or **Ħapta** for the bride. Expect a lively entrance with **Zaffa** (zurna and t'bal) and the **Nişar** (tossing sweets/coins). The evening will be filled with authentic **Chaabi** music.

4. Menu (Indicative portions for 150 guests)

- **Main:** 150 bowls of Chorba Frik, 150 plates of Salad, 75 chickens (Djaj b'hazzouan), 750 pieces of Dolma, 150 plates of Rechta or Berkoukes.
- **Sweets:** 900 Baklawa, 600 Makroud, 450 Ghriba.
- **Drinks:** 300 glasses of juice and 450 bottles of water.

The first decision you must make: Given the budget gap, please **re-evaluate your guest list**. Reducing the number of guests is the most practical way to protect the quality of

your traiteur and photo/video services without compromising your vision. Once you have a final guest count, we can refine the numbers!
